Re: Manuscript #111728 — request for withdrawal, signed by all authors

Dear Editors,

I sincerely apologise for the submission error described below and respectfully request the withdrawal of manuscript #111728, “Gamification as a Proactive Approach: A Study of Elderly Failure-Induced Abandonment in Gamified Fall Risk Assessment.” A withdrawal request was posted through the Communication Log shortly after submission, before the initial editorial checks had been completed. This letter, signed by both authors, formally confirms our withdrawal request.

I submitted the manuscript without my co-author’s prior consent. In my inexperience with the journal submission process, I also overlooked the requirement that a manuscript may be under consideration at only one journal at a time. I recognise that it was my responsibility to understand and comply with these requirements. Upon learning of the submission, my co-author instructed me to request its immediate withdrawal.

I take sole responsibility for these errors. I now fully understand the ethical requirements governing journal submissions and will ensure that all future submissions comply with them and have the prior approval of all co-authors. I respectfully ask for your understanding and sincerely apologise for the editorial time and inconvenience caused by my actions. We would be grateful for written confirmation once the withdrawal has been completed.

Yours sincerely,
